DETAILED ACTION

This is in response to RCE filed on 8/13/08 in which claims 1-42, 45, 47-49, 53, 55-57, 61 and 63 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance. In addition the pending claims have been renumbered as 1-52 respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: assigning first symbols to the upper layer signal portion of the encoded combined upper layer signal and the lower layer signal and assigning second symbols to the upper layer signal portion of the encoded combined upper layer signal and the lower layer signal and delaying the first symbols as recited in claims 1, 9 and 17. Delaying the input signal; demodulating the delayed input signal to produce a lower layer signal; combining the upper layer signal and the lower layer signal; and decoding the combined upper layer signal and the lower layer signal as recited in claims 25, 31 and 37. Re-encoding and remodulating the upper layer signal; extracting the lower layer signal from the input signal by subtracting the re-encoded and remodulated upper layer signal from the input signal as recited in claims 45, 48, 53, 56 and 61.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
